

EURO CHLOR
 REPRESENTING THE CHLOR-ALKALI INDUSTRY

VERIFICATION CERTIFICATE

96/07

The Working Group Production, Storage and Transport Safety (GEST) of Euro Chlor after enquiry among the Euro Chlor member users and examination of the documents submitted by the applicant declares that the valve of Phönix 309.51 has given satisfactory results for use on rail and road tankers and ISO-containers for the transport of bulk liquid chlorine and are accepted for the transport of bulk liquid chlorine.

The Verification Certificate is given for the valve model Phönix 309.51 manufactured in accordance with the documents sent to and filed by Euro Chlor and referred in appendix. This file corresponds to the Euro Chlor recommendation GEST 75/46 - 8th Edition - November 1996 - Pneumatically operated valves for use on rail and road tankers and iso-containers for liquid chlorine.

The Verification has been done according to GEST 94/201 - June 1996 - Procedure for verification of pneumatically operated valves for use on rail and road tankers and iso-containers for liquid chlorine.

Euro Chlor keeps the right to cancel this certificate in case of infringement of the prescription of the GEST 75/46 - November 1996.
